„TURNAJ NÁRODŮ 2024“

*Petr Pavel*

Dear guests, dear friends,

let me welcome you all to our U15 tournament. This year, young talented footballers from different countries gathered here to play against each other and thus measure their football skills in international competition. However, this tournament represents much more.

Thanks to the connection of the tournament with the European project "Remembrance of the victims of the Holocaust", it is also an opportunity for young players to learn and understand the historical significance of events that we must not forget.

It is a great honor for me that this tournament is being held under the patronage of the President of the Republic, Mr. Petr Pavel. His support of this sports-cultural event shows us how important it is to combine sports with education and honoring history. We also have an opportunity here to show that football can be a powerful tool for creating understanding, solidarity and peace.

Therefore, I wish all players, coaches, parents and spectators that the following matches will not only be a wonderful sporting experience for them, but also an opportunity to honor the memory of all the victims of World War II.

I would like to thank all the partners and people who participated in the organization of this important tournament and I wish all the teams the best of luck.

Zukunftsfonds

Since 1998, it has supported mutual trust, meetings and cooperation between Czechs and Germans.

Altogether, more than 13,900 Czech-German projects were supported and almost EUR 78.8 million were distributed. The key task of the fund is for Czechs and Germans to meet, to get to know each other, and above all to have the desire to create a neighborhood in which they will feel good.

The Czech-German Future Fund is the main partner of the "Remembrance of the victims of the Holocaust " project.

## Balíkovna

A self-service facility from which you can pick up your package at any time and without queuing. We operate a parcel store outside the post office at one of our partners. You can find it, for example, in a grocery store, stationery store or drugstore. And also at selected SAZKA sales points.

We are a team of brokers, real estate and financial professionals who want to do things differently. Although we are based and operate mainly in Ostrava, you can find our representation all over the Czech Republic. Therefore, it is not a problem to help you with real estate anywhere, even in northern Bohemia, southern Moravia or Prague.

What distinguishes our real estate office from other offices, private brokers or real estate giants? Like them, we have years of experience and a personal approach, but we rely above all on the transparency and comprehensiveness of our services.

The Baier Group was created in 2016 by connecting our companies. They are strong players in the packaging materials market, in the field of processing steel waste and scrap, and in the supply of oils, lubricants and metalwork.
